

WELL HISTORY - GEOTHERMAL

Operator Harding Lawson Associates		Well name and number 'BHS'-3 (INTERMEDIATE)				
Field [REDACTED]	County Riverside	Sec. 29	T. 2S	R. 5E	B.&M. SB	

It is of the greatest importance to have a complete history of the well. Use this form to report a full account of all important operations during the drilling and testing of the well or during redrilling, permanently altering casing, plugging, or abandonment, with the dates thereof. Be sure to include such items as hole size (in cm), formation test details, volumes of cement used (in m³), top and bottom of plugs (in m), perforation details, sidetracked junk, bailing tests, shooting and initial production data (in kg/hr), and zone temperature (in °C).

DATE	HISTORY
11/14/85	Moved in backhoe. Dug down 8 feet around casing. Cut off casing at 6 feet below surface. Water level at 75 feet. Tacked cap on casing. Barricaded site.
11/15/85	Removed cap. Filled casing with cement from top of water to surface. Backfilled pit and restored site to original contour. Richard E. Corbaley of DOG witnessed cementing and inspected final site condition.
<div style="text-align: right;">  FEB 24 1986 DIVISION OF OIL & GAS SACRAMENTO </div>	

In compliance with Section 3735, Chapter 4, Division 3 of the Public Resources Code, the information given herewith is a complete and correct record of the well and all work done thereon, so far as can be determined from all available records.

Name Roy C. Skinner		Title Senior Geologist
